📍 **Address: Egypt,** El Minya, Bani Mazar

Professional summary

I specialize in Full-Stack development with PHP and Laravel Framework on the backend and ReactJS on the front end, with a focus on designing and developing websites that integrate the latest technology and safety processes. With 4.5 years of experience in critical thinking, designing, coding, and developing, I have worked with clients in various industries such as eCommerce, education, IT, automotive, real estate, food service, and healthcare.

Work Experience

- ### Dashboard For Expenses Mangement System [Upwork Project]
    Expenses management Dashbaord built with ReactJs and Material Ui, Fully Responsive
    And, I integrated 32 API endpoints, with authentication using axios and client side validations for forms and a lot more, I got 5 star review for this project on Upwork.
